

Press / News Text for „Vertical Waves“

New fresh designs for the classical vertical blind systems: Silent Gliss, together with Swedish textile designer Eva Marmbrandt developed new, extraordinary and exclusive designs for vertical louvers: the **Vertical Waves**.

Vertical Waves is a series of laser cut vertical blinds adjusted to the modern architecture, aiming to create more agreeable sound and light surroundings in public environments. Three designs are available:

Andrea

Annika

Maria

Eva Marmbrandt
Textile designer MFA, Sweden
Degree from College of Arts, 2004, Stockholm

During the last few years she has focused on developing new materials and forms in the area of vertical blinds, where she exploits the unique advantage that this system offers to designers.

Vertical Waves are a perfect contemporary window treatment as well as an eye catching dramatic room divider.
